This bulletin covers ambulatory health care, and should be of interest to multidisciplinary staff working in this area. Topics covered can include anaesthesia and analgesia, day surgery, infections, management and service design, minor injuries, outpatient investigations and procedures. The bulletin will be published bi-monthly.

Many of the following articles are available online via the NHS Scotland Knowledge Network. Please use the links where provided and your ATHENS login. A complete list of available online journals and registration for ATHENS can be found at www.knowledge.scot.nhs.uk.

If the reference you require is not available on the NHS Scotland Knowledge Network and you would like a copy, please use our online requests service at www.quest.scot.nhs.uk or www.knowledge.dd.scot.nhs.uk.

Critical appraisal is an essential part of evidence-based practice and involves systematically evaluating evidence to establish whether it is valid, accurate and relevant. For introductory resources, visit the Critical Appraisal Tools pathway, or StaffNet at Info Centre > Library > Critical Appraisal Resources.

This bulletin contains a selection of material gathered from a search of the evidence base, and is not intended to be comprehensive. Professional judgment should be exercised when appraising the material. The Library takes no responsibility for the wording, content and accuracy of the information supplied, which has been extracted in good faith from reputable sources. NHSGGC is not responsible for the content of external internet sites.

Contents:
- Anaesthesia & Analgesia
- Day Surgery
- Infections & Antibiotic Therapy
- Management
- Minor Injuries
- Outpatient Investigations
