

Current Awareness Bulletin:

Oral and Maxillofacial Surgery

Issue 07 July 2026

This current awareness bulletin includes recently published literature related to the discipline of Oral and Maxillofacial Surgery (OMFS).

It is produced on a quarterly basis by the NHS Forth Valley Library Service. You can use the links within each reference to view the articles on our [national catalogue](#). From there, you can review the abstract, access the full-text where available, or place requests for articles that are outside of our current subscriptions.

Please remain critical and use your professional knowledge and judgement to assess the validity and relevance of the sources included in this bulletin, as they have not gone through an appraisal process and may therefore be variable in quality.

If you would like to contact us with feedback, comments, or questions then please email fv.forthvalleylibraryservices@nhs.scot.

Finally, don't forget to check out the [full range of current awareness bulletins](#) available on The Knowledge Network, our national digital library. You can also access a wealth of other [library subscription resources](#) on this website. If you require any support, please [get in touch with your local NHSS library service](#).

Contents

Oral Surgery	3
Third molars	3
Other	4
Head and Neck Cancer, Cutaneous Malignancy, Benign Tumours, and Cysts	5
Medication-related Osteonecrosis of the Jaw (MRONJ)	6
Fractures, Trauma and Pain.....	7
General / Miscellaneous	8
Additional Resources and Support	9
Evidence Summaries	9
Medicines Information	9
Literature Searching and Training	10
End of Document	10

Oral Surgery

Third molars

- 1) Abusamak, M. et al. (2026) "[Effect of NSAIDs, melatonin, vitamin D and vitamin B12 chronotherapy on postoperative recovery after third molar surgical extraction: A pilot randomized crossover placebo-controlled trial](#)," *Oral and maxillofacial surgery*, 30(1). DOI: 10.1007/s10006-026-01582-0.
- 2) Achuthan, V. et al. (2026) "[Therapeutic Implication of Hyaluronic Acid Gel Following Impacted Mandibular Third Molar Surgery: an Observational Study](#)," *Mædica*, 21(1), pp. 81–88. DOI: 10.26574/maedica.2026.21.1.81.
- 3) Jain, A., Merchant, Y. and Jadhav, P. (2026) "[Beyond the white line: a multicentre retrospective analysis of radiographic and clinical predictors of inferior alveolar and lingual nerve injury following mandibular third molar surgery](#)," *Oral and maxillofacial surgery*, 30(1). DOI: 10.1007/s10006-026-01558-0.
- 4) Li, J.T.W. and Leung, Y.Y. (2026) "[Ten-year-plus follow-up study on coronectomy of the mandibular third molar](#)," *International journal of oral and maxillofacial surgery*, 55(5), pp. 592–598. DOI: 10.1016/j.ijom.2025.11.004.
- 5) Magesty, R.A. et al. (2026) "[Management of pain with oral analgesia after extraction of lower third molars: a network meta-analysis of randomized controlled trials](#)," *International journal of oral and maxillofacial surgery*, 55(8), pp. 977–985. DOI: 10.1016/j.ijom.2026.03.020.
- 6) Shyamkumar, N.T. et al. (2026) "[Cutting with sound or steel: A modern comparison of piezoelectric and rotary techniques in third molar surgery](#)," *Bioinformation*, 22(3), pp. 1895–1900. DOI: 10.6026/973206300221895.
- 7) Sun, R. et al. (2026) "[Expert consensus on the management of third molar health](#)," *International journal of oral science*, 18(1). DOI: 10.1038/s41368-025-00413-4.
- 8) Thilak, P.S.G. et al. (2026) "[Post-operative Sequelae Following Surgical Removal of Mandibular Third Molars with and Without the Use of a Tube Drain - A Comparative Study](#)," *Annals of maxillofacial surgery*, 16(1), pp. 8–14. DOI: 10.4103/ams.ams_60_25.

Other

- 1) Al Khatib, A., Thor, A. and Jabbari, F. (2026) "[Long-term follow-up of Class II malocclusion treated with bilateral sagittal split osteotomy: a retrospective study with 6–19 years of follow-up](#)," *International journal of oral and maxillofacial surgery*, 55(7), pp. 803–809. DOI: 10.1016/j.ijom.2025.12.002.
- 2) Bencherqui, S. et al. (2026) "[Reduction in same-day readmission rate for orthognathic surgery with a new enhanced recovery after surgery protocol](#)," *Clinical oral investigations*, 30(6). DOI: 10.1007/s00784-026-06841-8.
- 3) Committeri, U. et al. (2026) "[Controlled cryotherapy and kinesiology taping for postoperative facial oedema following orthognathic surgery in class III malocclusion : a smartphone-based three-dimensional volumetric study](#)," *Oral and maxillofacial surgery*, 30(1). DOI: 10.1007/s10006-026-01554-4.
- 4) Dadjam, D. et al. (2026) "[Systematic review of autologous midface reconstruction methods: palatal and limited midfacial defects](#)," *International journal of oral and maxillofacial surgery*, 55(8), pp. 885–899. DOI: 10.1016/j.ijom.2026.03.001.
- 5) Delpachitra, S.N. et al. (2026) "[Social media insights into patient perceptions of orthognathic surgery](#)," *British journal of oral & maxillofacial surgery*, 64(6), pp. 484–489. DOI: 10.1016/j.bjoms.2026.03.010.
- 6) Li, C. et al. (2026) "[An Automated Framework for Mandibular Reconstruction: Evaluation and Clinical Application](#)," *Head & neck*, 48(8), pp. 2076–2086. DOI: 10.1002/hed.70215.
- 7) Pessoa Neto, J.V. et al. (2026) "[Maxillary segmentation in Le Fort I osteotomy: a meta-analysis of complications compared with one-piece surgery](#)," *British journal of oral & maxillofacial surgery*, 64(4), pp. 273–278. DOI: 10.1016/j.bjoms.2026.02.007.
- 8) Shammout, M. et al. (2026) "[Altered sensation of the inferior alveolar nerve in sagittal spilt osteotomies: a review of cases at a major UK centre over 10 years](#)," *British journal of oral & maxillofacial surgery*, 64(5), pp. 350–357. DOI: 10.1016/j.bjoms.2026.03.004.

- 9) Takahashi, K. et al. (2026) "[The preoperative condition of the temporomandibular joint and role of disc perforation in postoperative condylar resorption in Class II orthognathic surgery patients,](#)" *International journal of oral and maxillofacial surgery*, 55(5), pp. 569–577. DOI: 10.1016/j.ijom.2025.11.009.
- 10) Talpoş, Şerban et al. (2026) "[Long-term patient satisfaction and complication rates after orthognathic surgery: a minimum 3-year follow-up study,](#)" *Oral and maxillofacial surgery*, 30(1). DOI: 10.1007/s10006-026-01580-2.

Head and Neck Cancer, Cutaneous Malignancy, Benign Tumours, and Cysts

- 1) Arboleda, L.P.A. et al. (2026) "[Head and Neck Cancer Patients' Health Literacy: A Systematic Review and Meta-Analysis,](#)" *Head & neck*, 48(6), pp. 1461–1472. DOI: 10.1002/hed.70154.
- 2) Fishwick, M. et al. (2026) "[Head and neck cancer risk predictive models: a solution to streamline urgent suspected cancer referrals?,](#)" *British journal of oral & maxillofacial surgery*, 64(4), pp. 282–290. DOI: 10.1016/j.bjoms.2025.11.002.
- 3) Hui, A. et al. (2026) "[Among Patients With Oral Cavity Squamous Cell Carcinoma Does Timing of Adjuvant Radiation Therapy Affect Survival?,](#)" *Journal of oral and maxillofacial surgery*, 84(6), pp. 970–977. DOI: 10.1016/j.joms.2026.01.009.
- 4) Imran, H. et al. (2026) "[Mandibular marginal resection for a unique dentigerous cyst presentation, a case report,](#)" *Oral and maxillofacial surgery cases*, 12(2). DOI: 10.1016/j.omsc.2026.100449.
- 5) Liang, J. et al. (2026) "[Incidence and risk factors for postoperative vascular crisis in patients with oral and maxillofacial cancer: a systematic review and meta-analysis,](#)" *BMC oral health* (online first). DOI: 10.1186/s12903-026-08961-9.
- 6) Qahtan, A., Al-Sayadi, A. and Mohammed, E. (2026) "[Timing of surgery after neoadjuvant immunochemotherapy in head and neck squamous cell carcinoma: Current evidence, surgical implications, and a research agenda,](#)" *Oral and maxillofacial surgery*, 30(1). DOI: 10.1007/s10006-026-01587-9.
- 7) Simpson, C.D. et al. (2026) "[Accuracy of the Head and Neck Cancer Risk Calculator in oral and maxillofacial surgery,](#)" *British journal of oral & maxillofacial surgery*, 64(4), pp. 303–309. DOI: 10.1016/j.bjoms.2026.02.005.

- 8) Slezák, R. et al. (2026) "[Glandular odontogenic cyst: a retrospective clinical study of 10 cases](#)," *Oral surgery, oral medicine, oral pathology and oral radiology* (online first). DOI: 10.1016/j.oooo.2026.04.009.

Additional Resources and Support

Evidence Summaries

[Evidence summaries](#) are point of care decision support tools that make it easier to get evidence into practice. They summarise high-quality evidence on different conditions, including practice advice around diagnosis and treatment options, into consider reference entries to help you find answers to clinical questions easily.

There are several evidence summary tools available via The Knowledge Network as part of our national library subscriptions. You may be particularly interested in searching [BMJ Best Practice](#) or [DynaMed](#) for up-to-date information on conditions of interest.

Medicines Information

There are also several Medicines Information resources available via The Knowledge Network, including the BNF. You may be interested in [accessing these resources](#) for up-to-date evidence and advice around the safe, efficient and effective use of medicines.

Literature Searching and Training

If you would like to request a literature search around a particular research topic or clinical question, or if you'd like to arrange training/support with using The Knowledge Network, specific resources, or with literature searching, then please [contact your local library service](#) who will be happy to advise further.

NHS Forth Valley staff and partners can find more information about requesting services from the library on StaffNet, or get in touch with us by emailing fv.forthvalleylibraryservices@nhs.scot.
