Dementia

Nutrition

1. Amanat S, Dordevic AL, Cardoso BR. [The association between nutrition and post-stroke cognitive impairment and dementia: a systematic literature review](#). *Proceedings of the Nutrition Society*. 2025; 84(OCE1): 1.
2. Estrada LV, Malani PN, Vitale CA. [Eating and Swallowing Problems in People With Advanced Dementia](#). *JAMA*. 2025: no pagination.

3. Fekete M, Varga P, Ungvari Z, et al. [The role of the Mediterranean diet in reducing the risk of cognitive impairment, dementia, and Alzheimer's disease: a meta-analysis.](#) *Geroscience*. 2025: no pagination.
4. Yang J, Bernard L, Chen J, et al. [Plasma Proteins Associated with the Mediterranean-Dietary Approaches to Stop Hypertension Intervention for Neurodegenerative Delay \(MIND\) Diet and Incident Dementia.](#) *J Nutr*. 2025; 155(6): 1710-1721.
5. Zhao C, Gong J, Huang J. [Comment on "Hearing loss, diet, and cognitive decline: interconnections for dementia prevention".](#) *JPAD*. 2025; 100189.

Cognitive Function

1. Cao Y, Salvati LR, Chen J, et al. [The Association of Circulating Immune Cells With Cognitive Function, Brain Imaging, and Incident All-cause and Alzheimer's Dementia: The Framingham Offspring Study.](#) *J Gerontol A Biol Sci Med Sci*. 2025; 80(6): no pagination.
1. Chua SY, Christensen J, Timmers R, Schauerma J, Rawling K. [Using acousmatic storytelling to facilitate communication and social interactions in people living with dementia: An iterative exploratory 12-week study.](#) *Australas J Ageing*. 2025; 44(2): e70052.
2. Dhande SR, Gupta A, Bhosale S. [Standardization of Kushmanda Ghrita and Its Neuroprotective Effect in Trimethyltin-Induced Dementia in Wistar Rats: Insights into Cognitive Function and Oxidative Stress Modulation.](#) *J Ethnopharmacol*. 2025; 119976.
3. Hockley A, Moll D, Littlejohns J, Collett Z, Henshall C. [Access to communication support for community-dwelling people with dementia: A mixed methods study exploring local perspectives within the United Kingdom context.](#) *Age Ageing*. 2025; 54(6): no pagination.
4. Jehu DA, Pottayil F, Dong Y, Zhu H, Sams R, Young L. [Exploring the association between physical activity and cognitive function among people living with dementia.](#) *Journal of Alzheimer's Disease*. 2025; 105(4): 1037-1046.
5. Liu P, Zhang Y, Yu Z, Wang X, Meng Q. [Effects of Individual Cognitive Stimulation Therapy on Cognitive Function and Depressive Mood in Dementia Patients: A Systematic Review and Meta-Analysis.](#) *Psychogeriatrics*. 2025; 25(4): e70054.

6. Richey LN, Daneshvari NO, Young L, et al. [Associations of Traumatic Brain Injury and Mild Behavioral Impairment With Cognitive Function and Dementia](#). *J Geriatr Psychiatry Neurol*. 2025; 38(4): 264-274.
7. Sunjaya AM, Schreiber T, Kantilal K, Davies N, Griffiths S. [Communication strategies for delivering personalised dementia care and support: a mixed-methods systematic review and narrative synthesis](#). *Age & Ageing*. 2025; 54(5): 1-16.

Medicines

1. Anderer S. [GLP-1 Medications May Lower Dementia Risk, Research Shows](#). *JAMA: Journal of the American Medical Association*. 2025; 333(21): 1855.
2. Mehnaz D, Shamsi Y, Akhtar MW, Rahman Y. [Therapeutics for Dementia and Alzheimer's Disease in Unani Medicine](#). *Altern Ther Health Med*. 2025; 31(4): 188-192.
3. Raver E, Jung J, Carlin C, Feldman R, Retchin SM, Xu W. [Potentially Inappropriate Medication Use Among Patients With Dementia in Traditional Medicare and Medicare Advantage](#). *Medical Care*. 2025; 63(7): 495-499.
4. Silvey S, Sterling RK, French E, et al. [Corrigendum to "A Possible Reversible Cause of Cognitive Impairment: Undiagnosed Cirrhosis and Potential Hepatic Encephalopathy in Patients with Dementia" \[The American Journal of Medicine. 137:11 \(2024\) 1082-1087.e2 / PMID: 38942345\]](#). *American Journal of Medicine*. 2025; 138(7): 1115.
5. Yang L, Huang Y. [Comment on "Integrating traditional Chinese Medicine reduced the risk of hip fracture in patients with dementia."](#) *Journal of the Formosan Medical Association*. 2025; 124(7): 685-686.

Activity

1. Boer D, Nibbering R, Schmidt C, et al. [Exploring the physiotherapy and exercise needs and preferences of nursing home residents with dementia: A qualitative study](#). *JAD Rep*. 2025; 9: no pagination.
2. Ferrero-Sereno P, Palomo-López P, Mendoza-Muñoz M, Luna-Castaño P, Caballero-De la Calle R, Muñoz-Bermejo L. [Digital Health Literacy and Physical Activity Programme for Improvement of Quality of Life in Caregivers of People with Dementia \(CAREFIT\): Study Protocol](#). *Healthcare (2227-9032)*. 2025; 13(11): 1219.

3. Jehu DA, Pottayil F, Dong Y, Zhu H, Sams R, Young L. [Exploring the association between physical activity and cognitive function among people living with dementia](#). *Journal of Alzheimer's Disease*. 2025; 105(4): 1037-1046.
4. Jeong W, Jeong W, Kim S. [Effect of Social Activity on All-Cause Dementia Among South Korean Elders: A Retrospective Cohort Study](#). *Health Sci Rep*. 2025; 8(6): e70929.
5. Maeshima S, Osawa A, Watanabe Y, Arai H, Bucks RS. [Development and validation of the Japanese version of the Bristol Activities of Daily Living Scale for Dementia and Mild Cognitive Impairment Assessment](#). *Geriatr Gerontol Int*. 2025: no pagination.
6. [Meaningful Activity Engagement for Assisted Living Residents with Dementia](#). *Journal of the American Medical Directors Association*. 2025; 26(6): no pagination.
7. Nouri M, Chaudhury H. [Built environment factors and their impacts on outdoor walking activity among people living with dementia: a spatial analysis approach](#). *Front. public health*. 2025; 13: no pagination.
8. Quick SM, Lawler K, Shannon MM, et al. [What is effective physiotherapy for dementia and how do we get there: a qualitative study](#). *Physiother. Theory pract...* . 2025; 41(7): 1447-1457.
9. Sitnikova V, Nurkhametova D, Braidotti N, et al. [Increased activity of Piezo1 channel in red blood cells is associated with Alzheimer's disease-related dementia](#). *Alzheimer's dement*. 2025; 21(6): e70368.
10. Swearingner H, Con Wright G. [Unmet Activities of Daily Living \(ADL\) Care Needs and Associated Risk Factors Among Older Adults with Dementia at the End of Life](#). *Journal of Gerontological Social Work*. 2025; 68(5): 719-736.
11. Toubøl AG, Clemmensen TH, Busted LM. [Nature nourishes the feeling of being - A walking interview study exploring the meaning of participation in nature-based activities for people living with dementia](#). *Dementia (14713012)*. 2025; 24(5): 835-849.
12. Yan Wang, Fangyu Li, Shuman Cao, Jianping Jia. [Dose- and pattern- physical activity is associated with lower risk of dementia](#). *The Journal of Prevention of Alzheimer's Disease*. 2025: 100223.

Early Onset

1. Cañabate P, de Rojas I, Marina G, et al. [Efficacy and impact of spousal support groups in enhancing the well-being of caring in early onset dementia: Lessons learned from the ACE Alzheimer center Barcelona](#). *Dementia*. 2025; 24(5): 955-976.
2. [Correction to "TRIM25 mutation \(p.C168*\), coding for an E3 ubiquitin ligase, is a cause of early-onset autosomal dominant dementia with amyloid load and Parkinsonism."](#) *Alzheimer's dement*. 2025; 21(6): e70256.
3. Jefferies K. [A project to increase awareness and opportunities for genetic testing in young onset dementia](#). *Journal of Dementia Care*. 2025; 33(3): 27-29.
4. Yang Y, Song J. [Understanding Family Resilience in Young-Onset Dementia: A Multiple Case Study](#). *Journal of Advanced Nursing (John Wiley & Sons, Inc)*. 2025; 81(7): 4023-4037.
